

Message from Honourable Vice Chancellor

Greeting from Visvesvaraya Technological University, Belagavi. It has been planned to send the provisional results of the VTU Examinations through WhatsApp, as a first time measure. This step has been taken to make the results available to the students on their cell phone. This will enable speedy dissemination of results to the students. I hope all the stakeholders of the university will appreciate this measure. This is one of the many student centric measures that is being initiated by the university.

Prof . S Vidyashankar
VICE CHANCELLOR
